
Blog?

Posted by johnrackham - 2006/04/11 14:42

Hi, I've made two attempts to start a blog on here. Both times I wrote long entries and when I clicked on save I discovered that the entries had just disappeared. What am I doing wrong? :(

You were probably timed out John.

My advice would be to write your blog and then cut and paste it in, so you don't get timed out. Better luck next time, do try again.

Yours Aye

Thanks James. I'll give it a try.

All the best,

John

Hey John,

sorry about your problems with the blog function.

not really sure what its problem is. am waiting to hear back from the developer of the code (it's freeware, so not sure how long it will take)

meanwhile have turned the functionality as it's not seeming to work in any situation now.

Nic
