
Unopened 35mm Fujifilm stock for sale (and lights)

Posted by rjwood - 2008/03/05 09:45

Hi guys,

I've started my spring cleaning early this year.

In addition to the lanebeam/laniro lights I'm selling on ebay at the moment (<http://cgi.ebay.co.uk/ws/eBayISAPI.dll?ViewItem&rd=1&item=190203851255&ssPageName=STRK:MESE:IT&ih=009>), I've also got some unused 35mm Fujifilm stock which was left over from a shoot last year.

The stock is all unopened and has been kept in cold storage for the past 6 months - as per Fujifilm's storage guidelines.

8573 1000ft Eterna 500T
8563 1000ft Eterna 250D
8553 400ft Eterna 250T
8543 400ft Eterna Vivid 160T

In the interest of full disclosure, the 400ft cans are labelled as test stock, as this is part of the sample stock we acquired before the shoot. However, as far as I can tell this film is of no less quality than the normal stuff.

Anyway, we paid the best part of Â£300 per 1000ft roll so I'm looking for decent offers upwards of Â£400 for the lot. Please email me with what you're willing to pay and I'll be in touch with the highest bidder in due course. No time wasters please.

I'm based just outside Ipswich, Suffolk if you'd like to collect, otherwise P&P is probably going to be around Â£20 I'd imagine.

Thanks,
Rich
